

OPAGLOS[®] 2

High Gloss Film Coating System

where technology meets art[™]

The Elegant
Dosage Form
Alternative

The Attractive Alternative to Encapsulated or Gel Technologies and Sugar Coating

With superior high gloss, custom color and taste options, Opaglos® 2 makes your solid oral tablets look more elegant and more appealing to consume. Plus as a unique, state-of-the-art, complete film coating system, it allows you to capitalize on existing in-house capacity.

Competitive Advantage

- Superior high gloss
- Trade-marking opportunity
- Custom colors
- Taste options
- Strong consumer appeal
- Effective on a variety of shapes and sizes

High Performance

- Excellent film strength and adhesion
- Good stability and dissolution
- Printable surface and logo definition
- Non-yellowing

Cost Effective

- Maximum gloss at minimum cost per tablet
- Pigmentable dry film coating system
- Uses existing equipment
- Easy reconstitution in water

Opaglos 2 ingredients are not derived from GMO sources. The product is not TSE/BSE implicated, is kosher certified and globally compliant for products regulated as drugs, depending on colorants required.
